Overview

Scala REPL

Variable and Values

Conditionals

Loops

Scala Variables

var

Assignment can change

val

Assignment can not
change

```
var day = "Sunday"  
if (!args.isEmpty) {  
    day = args(0)  
}
```

Conditional
Setting up the day

No Explicit Return

Scala Loops

while

for

Scala For Loop

Imperative

Do something

Functional

Return values

Functional For Loop

for clause *yield* body
